

Why Dance? Through dance we learn perseverance and self-motivation. Dancing encourages children to experiment and find different paths to solving problems. The sense of success and accomplishment experienced when one masters a movement found challenging encourages learners of all ages to transfer that ambition into other aspects of life.

Why The Dance Teacher? The Dance Teacher is a boutique style school that limits class enrollment for all our programs to ensure each student is provided the individual attention needed to learn and grow.

The Dance Teacher's extensive training, experience, and attention to detail ensures that all programs are both age and developmentally appropriate.

- Advanced registration required.
- Payment must accompany registration.
- No refunds.

New Student Registration by appointment. We request that the individual that will be attending the program attend the registration appointment too.
